

UN CSW 67TH SESSION CAMPAIGN

Women comprise 28.4 percent of the workforce in science, technology, engineering, and mathematics (STEM) and only 30 percent on average in sub-Saharan Africa. More so, more men are more likely to go online, own a mobile phone, own a smartphone, and use social media websites. These are all lost opportunities for most women. This gender digital divide was also exacerbated by the COVID-19 crisis.

At 2023 UN CSW, we carried out a campaign themed 'let's bridge the digital gender divide in Africa' we called for action and discussed with diverse participants inclusive solutions and ways to bridge the gender

Center for Gender Economics in Africa (CGE Africa)

Campaign Theme:
Let's bridge the digital gender divide in Africa

Africa Centre for Energy Policy

Year of Consolidation

Dear Reader,

Women's month!

Women's History Month celebrates women's contributions to history, culture, and society annually in March globally. Women's History Month 2023 occurred from Wednesday, March 1, to Friday, March 31, 2023, at CGE Africa; we joined in the celebrations.

Uchenna Idoko
Executive Director

M.Sc. Economics.

M.Sc. Political Economy & Development Studies

INTERNATIONAL DAY OF HAPPINESS - #Happy Aging

We joined the United Nations to celebrate the International Day of Happiness! With the theme "be mindful," "be grateful," and "be Kind." As people age, the relationships they forge and maintain with friends become more important than ever. Having people to connect with socially and personally isn't just fun; it's fundamental to promoting a healthy lifestyle throughout aging.

International Women's Day 2023

Center for Gender Economics Initiative, CGE Africa, held a One Day Media Roundtable meeting to commemorate international women's day, 2023 with the theme of innovation for gender and age-responsive media reporting in the digital era. Our Executive Director, charged media organizations to give increasing attention to gender equality and age-related issues in Nigeria.
